

# Introducing a new breed of storage for the studio

# EB8ML

## E8ML | Next generation SAS/SATA Storage

Proavio introduces the world's first SAS-ready, Multi-Lane SATA storage solution designed for content creation professionals who have outgrown their current array of external FireWire drives, and are ready to explore the world of high-resolution media. With four removable 3Gb SATA or SAS drives and a high-speed quad-channel Multi-Lane interface, editBOX 8ML can support complex and intensive 24/96 multi-track audio projects. By using innovative Multi-Lane technology, and your workstation's own disk management utilities, users can easily connect and configure up to 4.0TB of desktop storage within minutes.

## Dual SFF8470 Multi-Lane Ports for SAS/SATA

## Flexible Storage Design

editBOX 8ML features two quad-channel Multi-lane ports that delivers true 8X performance, well suited for 10-bit video projects. With support for both SATA & SAS 3Gb/s drives, editBOX 8ML offers incredible freedom when it comes to future disk upgrades or system repurposing. editBOX 8ML includes a 3-year limited warranty.

## Easy-to-Use Storage Solution for HD

editBOX 8ML was designed to address the sensitivity of a today's acoustically controlled studio environments. Featuring a brushed aluminum desktop design and an ultra-quiet cooling system, editBOX 8ML is esthetically and acoustically compatible with any editbay or control room configuration. Capable of delivering over 500MB/s sustained data throughput, editBOX™ 8ML can easily deliver multi-stream, uncompressed, HD video playback.

## Specifications

**System Description:**

8-disk, JBOD "serial" storage system for Mac & PC workstations.

**System Architecture:** 3Gb serial interface supports SAS & SATA configurations

**Enclosure Features:** Desktop mini-tower design. Heat dissipating aluminum material

**Controller Architecture:** None

**Interface:** Dual SFF8470 Multi-Lane ports (Infiniband screw type)

**Disk Interface:** Hot-swap, 3.5" SAS/SATA at 3Gb, 7200rpm

**RAID Operation:** Flexible JBOD configuration supports PCI-based RAID controllers

**System Management:** Power LED, HDD activity LEDs, Multi-Lane activity LEDs

**Hot-swap Components:** Disk drives, cooling modules and power-supplies.

**Power Supply:** Universal 250W (RoHS Compliant) power supply

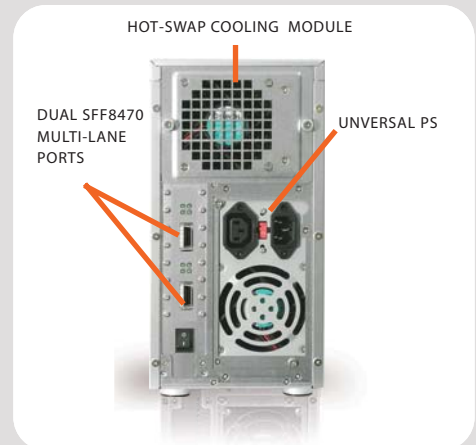

**OS Support:** Mac OSX, Windows XP Professional, Windows2003 and Linux

**Warranty:** 3-year factory warranty

**Note:** Specifications subject to change without notice

## Features & Benefits:

- 8-disk SATA/SAS Multi-Lane storage array
- Hot-swap disks & cooling
- Dual SFF8470 Multi-Lane ports (Infiniband)
- Quality-crafted aluminum design
- Flexible JBOD configuration
- Supports multi-stream uncompressed HD video
